PROFESSIONAL EXPERIENCE

Brochill (Telugu Labs), Full stack Developer   May 2024 – present
- Contributed to the development of **EngageON** ⧉ , a SaaS product, at a newly established startup
- Implemented front-end solutions using **Vue.js**, **Pinia** for state management, and **Tailwind CSS** for responsive design
- Leveraged **Redis** for high-performance in-memory data caching to optimize response times
- Utilized **ClickHouse** for efficient real-time data analytics and complex query processing
- Implemented **Kafka** for robust, scalable data streaming and messaging systems
- Worked with various databases, including **SQL**, for structured data management and storage

Eveez, MERN Stack Developer Intern ⧉   Apr 2024 – May 2024
- Leading the design and development of the comprehensive Recovery Tracker app
- Implementing bike recovery functionality, allowing employees to validate bikes, update recovery status, and upload images directly to **AWS S3**
- Optimizing the recovery process to enhance efficiency for the Eveez business team
- Working with both **SQL and MongoDB** databases to manage and store data effectively
- Utilizing Chart.js to visualize eBike recovery statistics, providing managers and administrators with region-specific insights & Developing a responsive and reliable application using **Next.js** for frontend, **Node.js** for backend, and **Tailwind** for styling, ensuring cross-platform compatibility

Inueron, MERN stack Intern | Javascript full stack ⧉   Feb 2023 – May 2023 | India
- **Front-end and Back-end Development:** Utilized **ReactJS** for the front end, ensuring a seamless user experience with responsive web design , Leveraged **Node.js** for the back end, ensuring efficient server-side operations.

PROJECTS & ADDITIONAL EXPERIENCE

Still Discount, stilldiscount.com ⧉   2021 – present
- Developed StillDiscount, an online platform providing exclusive free Udemy courses and discounts
- Built the website using **WordPress** and **WooCommerce**, creating a user-friendly interface for course discovery and access
- Implemented a feedback system to gather student ratings and reviews, enhancing course quality and user experience
- Deployed and maintained the website on **A2 Hosting**, ensuring reliable performance and uptime
- Applied **SEO** best practices, resulting in successful Google search indexing and improved online visibility
- Achieved significant user engagement: **185,705+ unique users and 855,918+ website visits**
- Implemented automated social media posting to maintain consistent and timely updates across multiple platforms

Educonnect, Full Stack Project ⧉   Feb 2023 – Apr 2023
Designed and developed Educonnect, a comprehensive educational platform, using **Next.js (React.js)** for frontend and **Node.js** for backend operations
- Built a responsive and intuitive user interface with Next.js (React.js), enhancing user experience and engagement
- Implemented robust backend functionality using Node.js and MongoDB for efficient data management
- Integrated **Stripe Payment Gateway API** to enable secure and streamlined payment processing
- Developed key features including user **authentication, attendance tracking, payment management, permission handling, timetable creation, exam arrangements, homework assignment, result publication, and department/section management**
- **Frontend Link** ⧉ **Backend Link** ⧉

Dev.to clone - React.js Frontend ⧉   Jul 2022
Created a web application using **React.js** that replicates the functionality of dev.to, Features like **infinite loading** and a **responsive design** for an enhanced user experience.

All Creative Works - Frontend Web Pages ⧉   Jan 2021
- Developed over **21+ web projects** with a focus on frontend development, utilizing **HTML, CSS, Tailwind,** and **JavaScript**. Successfully deployed projects using **Netlify**, showcasing a commitment to creativity, attention to detail, and effective communication.

SKILLS

Frontend: *React.js, Next.js, Vue.js HTML/ CSS, TailwindCSS, SCSS, Bootstrap, WordPress* • **Backend:** *Node.js - (Express.js)* •

API Testing: *Postman* • **Programming Languages:** *Java (DSA) , JavaScript, Python, C* • **Database Management:** *MySQL, NoSQL,*
MongoDB, Clickhouse, Mongoose • **Cloud Services:** *AWS basic , Netlify , Vercel* • **Version Control:** *Git/Github* • **More:** *Kafka, Redis ,*
Docker

EDUCATION

Bachelor of Technology - CSE(AIML) -   7.69 CGPA,   2021 – 2024 | Hyderabad
MLR institution of Technology

Diploma - CSE   -   7.65 CGPA, Jothismathi institutions of technology and science   2018 – 2021 | Karimnagar

ACTIVITES

Secured a position (40/ 100 overall India) in Cohort 5 Product organized by Cisco. ⧉
